

MANNO

Design Enhancements

8600 Series

The class design of the Manno series has been upgraded with a new mechanism that is easier to adjust and provides a smoother ride.

Multiple Position Tilt Lock

To lock chair in position, turn lever down. To release, turn lever up and lean back into the chair to activate slow-release lock feature.

A Tension Control

To increase tension, turn lever clockwise. To decrease tension, turn lever counter-clockwise.

B Pneumatic Height Adjustment

To lower seat height, turn lever up. To raise seat height, turn lever up and remove your weight from seat.
