AUGUST 2023

1221-CH DANFORTH II

TOP 5

Reasons To Choose Leather for Chairs.

1 | LEATHER GETS SOFTER OVER TIME AND WITH USE.

Over time and with frequent use, the leather in the chair will soften, making it more comfortable as it ages.

2 | LEATHER IS MORE DURABLE THAN OTHER MATERIALS.

Leather is considered more durable than many other materials, especially when it comes to chairs. This makes it well-suited for chairs that need to withstand regular use and wear.

3 | LEATHER IS A NATURAL MATERIAL, ITS NOT MADE FROM PETROLEUM PRODUCTS.

Leather is a natural material. In contrast, petroleum-based materials like synthetic leathers (also known as faux leather) are made from plastic derivatives, and often lack some of the natural properties and aging characteristics that genuine leather possesses.

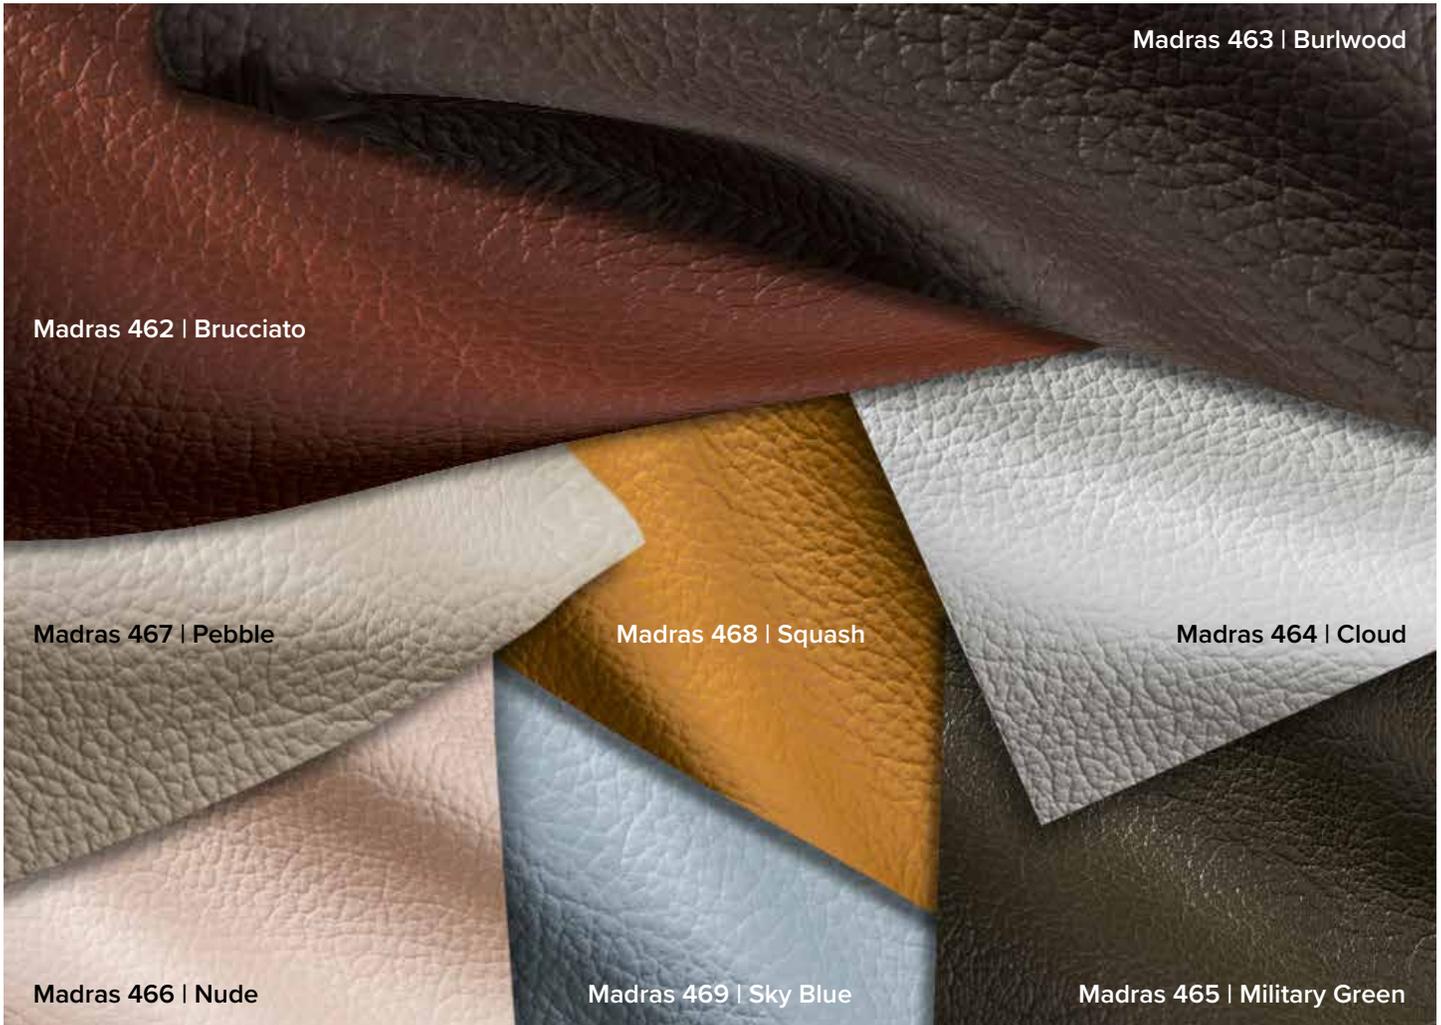

4 | LEATHER ENHANCES THE AESTHETICS OF THE CHAIR.

Leather carries a sense of luxury and elegance. Its smooth, natural texture and rich colors can elevate the overall look of a chair, giving it a sophisticated and upscale appearance. Leather has a way of adding a touch charm to chairs, that many people find highly appealing.

5 | LEATHER CHAIRS OFFERS A COMFORTABLE AND PLEASANT SEATING EXPERIENCE.

Leather has a naturally soft and smooth texture that feels gentle against the skin. It provides a luxurious and cozy sensation when you sit on it. Leather's smooth surface reduces friction, allowing you to easily shift your position on the chair without any discomfort.

WHY YOU WILL LOVE NIGHTINGALE'S LEATHER OPTIONS

Nightingale is excited to announce its newest Madras and Princess leather offerings. The launch of these new leather colors provide clients with even more high-quality luxurious textiles to choose from.

Madras and Princess are top grain, corrected, pigmented leather hides that are finished through a penetrating dye process. Soft to the touch, all hides are buffed and fully embossed with an even grain print to minimize any variations in the surface appearance.

With that in mind, leather is a natural product and as such, every hide remains unique in its character. Any marks on leather, in natural grain or texture variations, are regarded as evidence of its authenticity and help distinguish “real

leather” from imitations. Appearance, durability, ease of maintenance and unique character, have been considered the main attraction of “real leather”.

Nightingale’s new color additions to its Madras and Princess Leather Collections allows customers to further personalize their seating options and office spaces.

Please visit www.nightingalechairs.com to view the Madras Leather and Princess Leather collections to see the newest color offerings.

Nightingale Seating Experts: **THE IMPORTANCE OF SEATING CATEGORIES**

When deciding on a chair for at-home or office use most people consider price, aesthetics and functionality, but overlook or are unaware of the very important aspect of product category.

Nightingale understands this significance which is why we offer 9 distinct product and application categories for clients to choose from: Conference, Guest, Healthcare, Ergonomic Task, Stackable, Executive, Lounge, 24 Hour and Sit/Stand chairs.

Focusing on a single category refines search options and helps customers avoid unnecessary warranty and parts issues. These can occur when purchasing a chair without considering if it is appropriate for the intended task

and work environment. By specifying who will be the user (height/weight, single or multi -use), the duration of use (8-hour workdays, 24/7, multi-shift) and the chair's purpose (what it will be used for, in what setting etc.) customers can easily find their ideal seating option while avoiding product issues.

Established for more than 95 years and having created over 50 product series and 321 model options, Nightingale can match clients with a quality, ergonomic chair that will best meet their needs, exceed expectations and enhance their sitting experience. We encourage customers to utilize Nightingale's expertise during the selection process to ensure they receive a chair that will help them make the most of their workday.

Find your fit with the **DANFORTH II**

1221-MF-CH

1221-CH

1221-RD-CH

Nightingale's Danforth II is a modular lounge seating option that adds a classic presence to any space. The Danforth II is easy to move and can be simply assembled in minutes, without tools.

This comfortable and stylish seat is made up of parts that snap and lock into place for solid, secure comfort. Customers can choose from a single club chair and two and three-seat sofas.

The Danforth can be upholstered in a variety of high-quality textiles, vinyls or leathers that will bring bold colors and textures to any area. The Danforth II comes standard with straight arms, however customers can select modern-flared or rolled arm options to further customize their lounge seat.

Other options to enhance your Danforth II are the built-in swivel tablet top that can go on either arm of the chair, a USB port for convenient charging access and optional brushed aluminum square legs for extra style.

With easily replaceable components the Danforth II is built to last. Its modular form makes this lounge seat versatile and economical as it can be tailored to fit small or large spaces.

The Danforth II Series is the perfect combination of comfort, style and functionality. It is a lounge solution that will allow your work life to feel as comfortable as possible.
