Jan. 8 th	Office open. Factory reopens for production.

We wish you a very Merry Christmas!

Nightingale Mesh: ABLEX™ and Nebula™

Not all mesh is the same and Nightingale's unique **ABLEX™** and **Nebula™** mesh technologies stand out from the rest. Keep reading to learn about these distinctive mesh offerings.

ABLEX™: This translucent weave pattern offers tremendous tensile strength; resulting in superior lumbar support and side-to-side torso flex movement. The monofilament rubberized coating on the polyester mesh enables its "bounce back" memory. Air flows freely through this mesh to offer added comfort in any environment. Nightingale attaches ABLEX™ mesh to the frame to provide the chair with a pre-set tension. ABLEX™ responds to the weight and shape of each user to deliver the exact amount of tension required to provide generous lumbar support while allowing for dynamic movement.

ABLEX™ mesh is featured on Nightingale's Bless, CXO, GXO, LXO, MXO, OXO, WXO, and SXO chairs.

Nebula™: Boasting many of the same ergonomic user benefits as ABLEX™, Nebula™ differentiates itself by being a dual mesh that is interwoven with a 4-way stretch fabric. Using this on the back of your chair allows air to pass freely, making it comfortable in all environments. Nebula™ mesh allows for dynamic movement, so it effortlessly supports the user as they move throughout the day.

Find the ultra-breathable **Nebula™** mesh on the following Nightingale chairs: IC2, EXO, and VXO.

Please note that Nightingale's **ABLEX™** and **Nebula™** mesh options are available in either Black or Silver. Black mesh is standard, where Silver is an upgrade. However, Silver mesh comes standard when ordering a white frame.

Joey

1311

1310

1310

Nightingale's Joey is a generously proportioned lounge seating series with an emphasis on creative seating comfort. Its creative confident design is accentuated by a refined metal base and refreshing shape. The Joey is versatile and interchangeable allowing it to fit into multiple environments, including hotels, lobbies and hallways.

- It provides flexibility. The basic design is refreshing, versatile and comfortable.
- It offers quality and durability. The upholstery features high density, high resiliency foam, ¾" hardwood plywood frame provides structural integrity and durability. The base frame is finished with a high impact silver epoxy power coat, electrostatically applied for corrosion resistance. The entire structure is built to exceed ANSI-BIFMA standards
- Environmental sustainability is key. The Joey component materials are easily separated. The steel frame is recyclable. Upholstery is easily removable. Foam is CFC free.
- The design is great for environments where constant re-configuration is required.

Try My Chair Maker

Your perfect chair starts here.

We want you to have the chair you'll fall in love with again and again. So, we've created My Chair Maker (MCM) to help you achieve that dream. It's super simple and quick to use!

Use My Chair Maker to customize a chair to fit your specific needs. Explore different options for the frame, arms, seat, casters, textiles and more to make your own chair.

Lots of new chairs have been recently added to our MCM. All models found in My Chair Maker are currently available for customization online, and we will be adding more in the future as they become available.

Customize your chair with our wide range of colors and grades on MCM: [nightingalechairs.com/my-chair-maker](https://www.nightingalechairs.com/my-chair-maker)

HOW TO NAVIGATE

Example

- 1 From the navigation menu, select **My Chair Maker**.
- 2 Select a model from our list of products.

Presider 7700 Series

Trullo 3000 Series

Danforth II 1220 Series

EC6 635 Series

- 3 Customize your chair using the pane on the left.
- 4 Generate a custom spec sheet that includes: Textile Information, Standard Features, Options and Product Background.

EC6 635D-DT
