

Nightingale Highlights

FEBRUARY 2022

Stool 1000WB-DS

Fall for the Johnny 1501

Nightingale's Johnny lounge chair series is new and improved with the introduction of a third model. Nightingale now offers the Johnny in a 4-legged version, the 1501 model.

The simple yet sophisticated Johnny now has 3-model options for users to choose from. The new 1501

four-legged model joins the sleek 1509TP trumpet base and the 1509 with its 4-pronged aluminum base with non-marking nylon base leg glides that protect floor surfaces.

The playful, practical and comfortable Johnny guest chair is even more versatile with the addition of the 1501 model.

This fully upholstered guest chair with high-density foam is perfect for general guest seating, individual contemplation, group work or conferencing. Now with three model options to choose from, the Johnny will fit the needs of any open-workspace and create a harmonious environment.

Nightingale's Proud Participation with One Tree Planted

Nightingale is an environmental champion and has always been committed to upholding green and sustainable practices. Nightingale has accumulated many awards that demonstrate its commitment to environment, however the Company also participates in charitable work that gives back to nature.

Last year, Nightingale collaborated with One Tree Planted to plant 250 trees. Nightingale donated 250 trees to support the global planting project based in Montana, Bhutan and Guatemala to reforest areas that have been damaged by consumerism and forest fires.

Nightingale is happy to participate with One Tree Planted to clean our air and water, support health and biodiversity, stabilize our climate and sustain local communities.

The graphic below, created by One Tree Planted further explains the positive impact that Nightingale's 250 trees will have on the environment through One Tree Planted's initiatives:

Restore Forests

Our Montana project will plant trees that are **resistant to damage from insects, disease, and fire**. These tree species have been decimated since the early 1900s.

Support Biodiversity

We will plant fruit trees in Bhutan to help in the conservation of bird and insect species within the area.

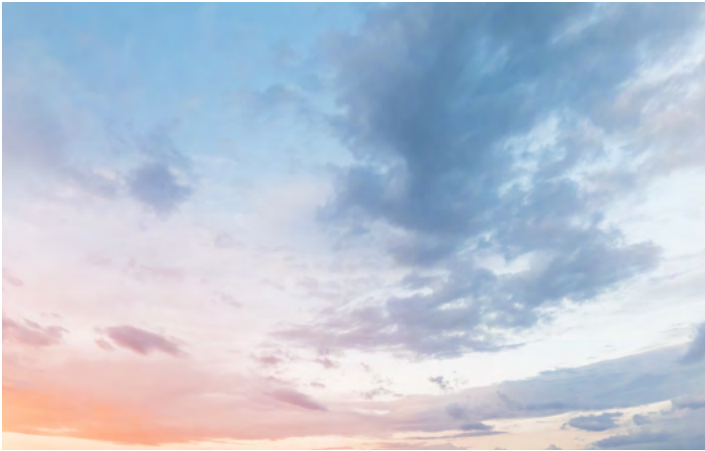

Empower Communities

We will be planting fruit trees in Bhutan and Guatemala to **provide food security for local communities**. Planting these will also promote locals to adopt agroforestry systems.

Nightingale is proud of its commitment to One Tree Planted as it will have a sustained and long-lasting impact on the natural environment and people in the

communities we are helping to restore. The simple act of donation to plant a tree has ripple effects that positively impact 6 key pillars:

Air — trees clean the air we breathe and reduce the effects of climate change

Water — trees capture rainwater reducing the risk of natural disasters

Biodiversity — a single tree can house hundreds of species of forest creatures including plants, mammals, insects, fungi, and moss

Social Impact — trees create endless job opportunities in the forestry industry, provide timber for shelter and heating needs, and produce food for both humans and animals

Health — trees reduce anxiety and stress, and allow us to reconnect with nature

Climate — trees help cool the planet and capture harmful greenhouse gases

Say Hello to Nightingale's Stool Series

Nightingale's Stool Series is economical and comfortable. It is ideal for use in medical, dental, laboratory, or small space environments where mobility is essential.

The Stool series is available in 4 model options:

All upholstered models shown in Standard Black Vinyl.

Standard Stool
Stool 1000

Stool with back
Stool 1000WB
Optional with sit to stand model with height adjustable foot ring

Polyurethane seat and back
Stool 1010
Optional with sit to stand model with height adjustable foot ring

Stool with trumpet base
Stool 1009

Nightingale has a stool to perfectly compliment any dynamic workspace.

The swivel mechanism on all models (except the trumpet base) features a 5.5" pneumatic seat height adjustment.

Ergonomically designed, these stools have high density and high resiliency foam for added durability and comfort.

The mechanism, base, casters, and trim come standard in black. Polished aluminum base is optional for the stool with back. The trumpet base comes standard with polished aluminum base to add refinery and style to your space.

The stool with molded polyurethane seat and back is ideal for any dental, medical, or laboratory field that requires a sterile work environment. This material is highly durable and easy to disinfect to meet hygienic workplace requirements.

Options for the stool models include sit to lock casters, stand to lock casters, locking casters, glides, height adjustable foot-ring chrome, 2" hard casters, and polished aluminum base.

Optional glides shown.

Optional aluminum base shown.

Leather Upholstery: Care and Maintenance

Nightingale offers customers the indulgent option of upholstering their chair in our high-quality Madras, Princess Leather or Volo lines. Leather upholstered furniture should require minimum to no care under

most common workplace/household conditions. It is the strongest and most durable material used for furniture upholstery. However, leathers will stain or change in character from food and liquid

spills or from body oils. Below are examples of what can cause damage to your leather and how to minimize the impact.

Direct Sunlight

Do not place in direct sunlight. Take caution when placing leather furniture near windows.

Abrasives and Cleaning Solutions

Never use detergents or alcohol-based products to clean spots. Avoid the use of ANY chemical polishes or soaps, saddle soap, oils, furniture polish, abrasive cleaning solvents, or ammonia.

Vigorous rubbing can damage the surface.

Heat Sources

Avoid placing your leather furniture near sources of excessive heat. Do not place your furniture less than 2 feet away from strong sources or heat i.e. radiator, fireplace, or direct sunlight. Such heat can dry out the natural oils in leather and cause stiffness and cracking.

General Care Instructions

Once a week vacuum or dust your leather with a clean dry cloth to keep it looking new. If needed, gently wipe spots with a clean cloth and lukewarm water.

If stain persists, use a mild soap and immediately dry any excess moisture. Never allow spills to set.

EC6 635D
Princess | Limone, Black

Nightingale's Madras, Princess, and Volo Leather are natural materials that are of luxurious quality, very durable, and low maintenance. If cared for properly your chair will wear excellently overtime, adding character and life to any room it is in.

ABOUT US

Founded in 1928, Nightingale is a contract seating manufacturer that puts purpose before profit. By collaborating with top designers, engineers and research teams, we create quality ergonomic products that are good for your body and the planet. Nightingale is one of the country's Greenest Employers and is committed to building products with minimal carbon footprints that are recyclable, sustainable and durable. All our products are made in our waste-free facility powered by clean energy. As one of the country's Best Managed companies, Nightingale's commitment to comfort, quality and innovation drives our vision to be a global industry leader.

We invite you to visit us at www.nightingalechairs.com to view all our quality seating options, obtain virtual literature, use the My Chair Maker app, learn more about our green initiatives and discover Nightingale's story.
